

St Andrew's Hospice

Bereavement Referral Criteria

As part of the NE Lincs Bereavement Partnership, St Andrew's Hospice provides bereavement support to anyone who is a resident in the area and registered with a GP in North East Lincs CPG.

We can support you regardless of where and how your loved one died. We can support you if it is over 8 weeks since your bereavement, and the bereavement has happened within the last 10 years.

Currently bereavement support for children is provided generally face to face in the school setting. Support for adults is mainly provided through group support, however we are aware that this is not possible for everyone, so this will be discussed with you by the team.
